DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory Neugebauer on 12/20/05.

The application has been amended as follows:

Cancel claims 90-103.

Allowable Subject Matter

Claims 22-34, 37-38 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art of record fails to teach nor suggest the combination of the limitations of claim 22 and having a top epitaxial layer on a second crystalline layer wherein the top epitaxial layer and second crystalline layer have a third lattice mismatch which is greater than the second. Claims 23-34 and 37-38 depend from claim 22 and act only to further narrow the allowable subject matter and are therefore deemed allowable over prior art as well.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
